

## Haematology capabilities in practice (CiPs) – mapping to 2010 curriculum competencies

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
<p><b>1.</b> Providing a comprehensive haematology laboratory service, including investigation, reporting and blood transfusion</p>	<p>H1 Introduction to laboratory haematology, H2 Laboratory haematology , H16 Haematology relating to other specialities, H19 Paediatric haematology.</p> <p>H2 Laboratory haematology, H3 Anaemia, H13 Haemoglobinopathies, H19 Paediatric haematology</p> <p>H18 Blood transfusion</p> <p>H8 Congenital coagulation disorders, H9 Thrombosis, H10 Anticoagulation, H11 Acquired bleeding disorders, H12 Platelet disorders</p> <p>H2 Laboratory haematology, H4 Acute leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H14 Bone marrow failure, H15 Myeloproliferative disorders</p> <p>H17 Generic competencies in haematology</p> <p>H1 Introduction to laboratory haematology, H2 Laboratory haematology</p>
<p><b>2.</b> Providing safe clinical advice to colleagues on interpretation of haematology laboratory results, blood transfusion practice and haematological disorders</p>	<p>H1 Introduction to laboratory, H2 Laboratory haematology , H16 Haematology relating to other specialities, H18 Blood transfusion, H17 generic competencies in haematology, H19 Paediatric haematology</p> <p>H2 Laboratory haematology, H3 anaemia, H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H9 Thrombosis, H10 Anticoagulation, H11 Acquired bleeding disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15 Myeloproliferative disorders, H18 Blood transfusion, H19 Paediatric haematology</p> <p>H2 Laboratory haematology, H3 anaemia, H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H9 Thrombosis, H10 Anticoagulation, H11 Acquired bleeding disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15 Myeloproliferative disorders, H16 Haematology relating to other specialities H18 Blood transfusion, H19 Paediatric haematology</p>
<p><b>3.</b> Managing patients with suspected or known haematological disorders in the out patient setting</p>	<p>H2 Laboratory haematology, H17 generic competencies in haematology</p> <p>H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H11 Acquired bleeding disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15</p>

Capability in practice (CiP)	Mapping to 2010 curriculum competencies
	<p>Myeloproliferative disorders, H18 Blood transfusion, H19 Paediatric haematology</p> <p>H17 generic competencies in haematology</p>
<p><b>4.</b> Managing patient in an ambulatory/day unit environment including specialist haematological treatments</p>	<p>H17 generic competencies in haematology</p> <p>H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15 Myeloproliferative disorders, H18 Blood transfusion, H19 Paediatric haematology</p> <p>H2 Laboratory haematology, H19 Paediatric haematology, H4 Acute leukaemia, H7 Lymphoma, H19 Paediatric haematology</p>
<p><b>5.</b> Managing inpatients with haematological conditions and provide continuity of care to haematological inpatients</p>	<p>H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H11 Acquired bleeding disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15 Myeloproliferative disorders, H18 Blood transfusion, H19 Paediatric haematology</p> <p>H17 generic competencies in haematology</p> <p>H4 acute leukaemia, H7 lymphoma, H11 Acquired bleeding disorders H16 Haematology relating to other specialities</p>
<p><b>6.</b> Managing acute haematological emergencies in all environments</p>	<p>H4 Acute leukaemia, H5 Chronic leukaemia, H6 Plasma cell disorders, H7 Lymphoma, H8 Congenital coagulation disorders, H10 Anticoagulation, H11 Acquired bleeding disorders, H13 Haemoglobinopathies, H14 Bone marrow failure, H15 Myeloproliferative disorders, H16 Haematology relating to other specialities, H18 Blood transfusion, H19 Paediatric haematology</p> <p>H17 generic competencies in haematology</p>
<p><b>7.</b> Managing the end of life and applying palliative care skills</p>	<p>C26 Palliative Care</p>
